clare ONE™

A snap one™ Brand

Meet ClareOne

Provide your family with the comfort, safety, and peace of mind they deserve. ClareOne combines the best of security monitoring and flexible home automation to complement your family's lifestyle. From security sensors to hundreds of smart home devices, the ClareOne Panel allows you to take charge of all aspects of your smart home from the convenience of your smartphone.

Versatility Unmatched

You'll find hundreds of your devices are ClareOne compatible. This includes wireless security sensors, door locks, garage door openers, cameras, smart thermostats, wireless audio, motorized shades, and more.

Peace of Mind

End your struggle to keep up with system updates. ClareOne automatically downloads and installs the latest firmware to ensure your smart home and security features are always up to date.

Do it all, in one place.

Convenient Controls to manage your entire home from anywhere using the ClareHome app or ClareOne Panel

Smart Video Doorbells provide a live or recorded view and allow two-way voice interaction

Powerful Safety & Security Options include cameras, smart locks, video doorbells, and security sensors

Smart Notifications activated by security sensors and alerts

Customizable Lighting creates lighting scenes and schedules that set the perfect ambiance

Effortless Audio to enjoy clear professional quality sound throughout your entire home

Smart Thermostats that easily program and adjust your climate settings for comfort and energy savings

ClareHome App

The ClareHome App allows each user to fully customize their app to fit their lifestyle:

- ✓ Create lighting or whole home scenes
- ✓ Schedule actions for a preset time
- ✓ Create notifications
- ✓ Add automation to everyday events
- ✓ Control your smart home remotely
- ✓ Add and manage users or additional properties
- ✓ Monitor the livestream of your cameras
